

Single Terry Circular Knitting Machine

Featuring different types of sinkers, the terry single knitting machine is capable of knitting high-quality terry fabric of different loop height. With the Lycra attachment, it can also knit stretchy towel.

- Multifunction model. Conversion kits allow single jersey, terry and velour machine changes
- High-volume production rate
- Stable fabric performance guaranteed by our famous converter

Main Features:

Featuring different types of sinkers, the terry single knitting machine is capable of knitting high-quality terry fabric of different loop height. With the Lycra attachment, it can also knit stretchy towel. Moreover, velvet with protruding loops can be produced as this machine is characterized by reversed cams and normal cams.

➤ **Stable Performance**

Groz-beckert Needles and Kern Sinkers are used to ensure fabric quality and long-life machine performance; cams are made of special alloy steel and processed by CNC and CAM treatment.

➤ **Flexible for knitting various fabrics and multi-functional models.**

A machine with multi-purpose functions, by configuring specific parts, the machine can easily be converted into a 3-thread-fleece and plain single jersey 4-track circular knitting machine.
