# About Us

Sintelli Knitting Machine

“ From Fabric Producer to Knitting Machine Manufacturer, Sintelli's manufactured solution is built on 40+ years of textile industry and 20 years of circular knitting machinery development and production ”

## **2004 Japan and German CNC Imported**

With very rapid development, Sintelli started to explore product lines of cylinder and central stitch control systems. Importing advanced CNC machine centers and other working machines from Japan and Germany, Sintelli became one of the leading companies in this field.

## **1997 Factory Established**

Sintelli Machinery was founded in Jinjiang city. With a rich experience in the textile industry, Sintelli quickly entered the top 5 knitting machine manufacturers in the domestic market.

## **1980 Before Established**

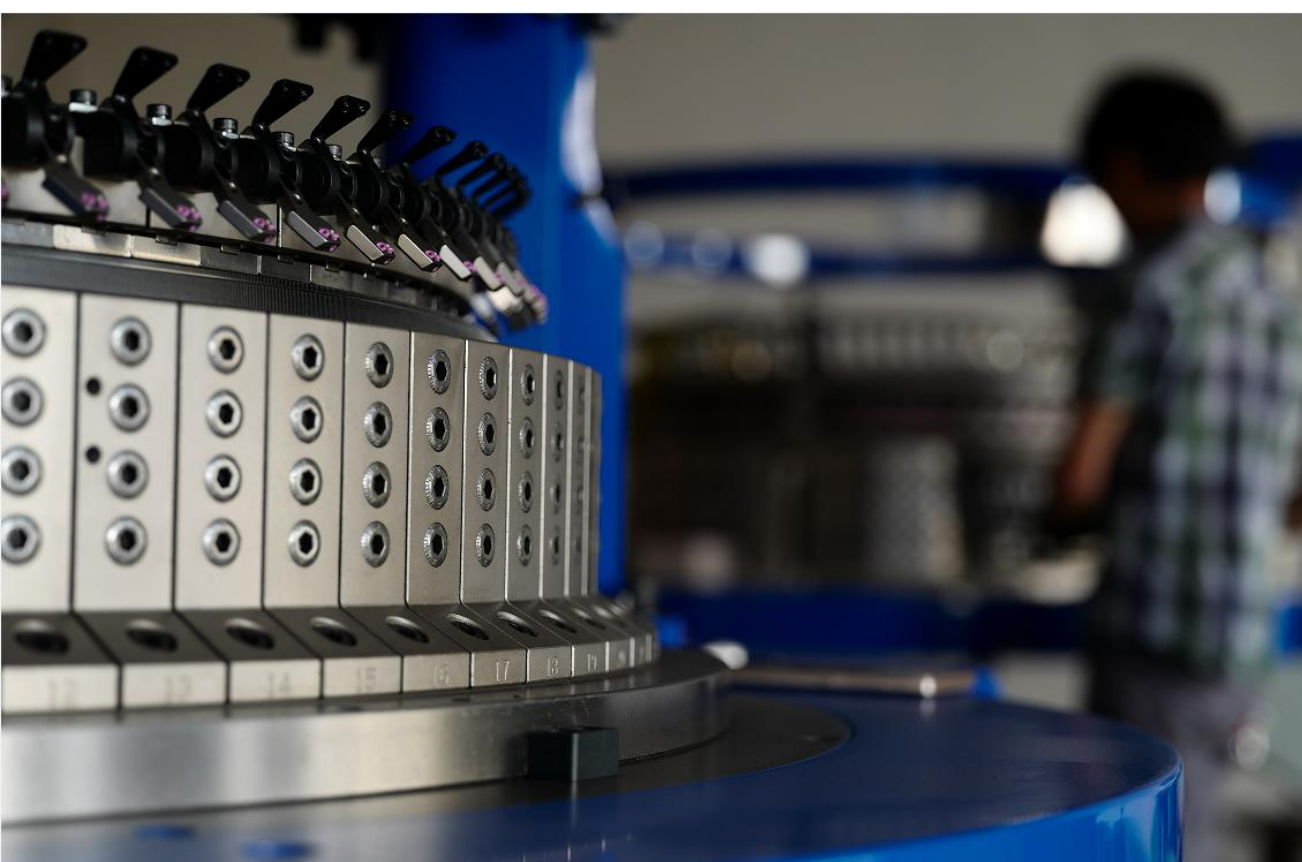

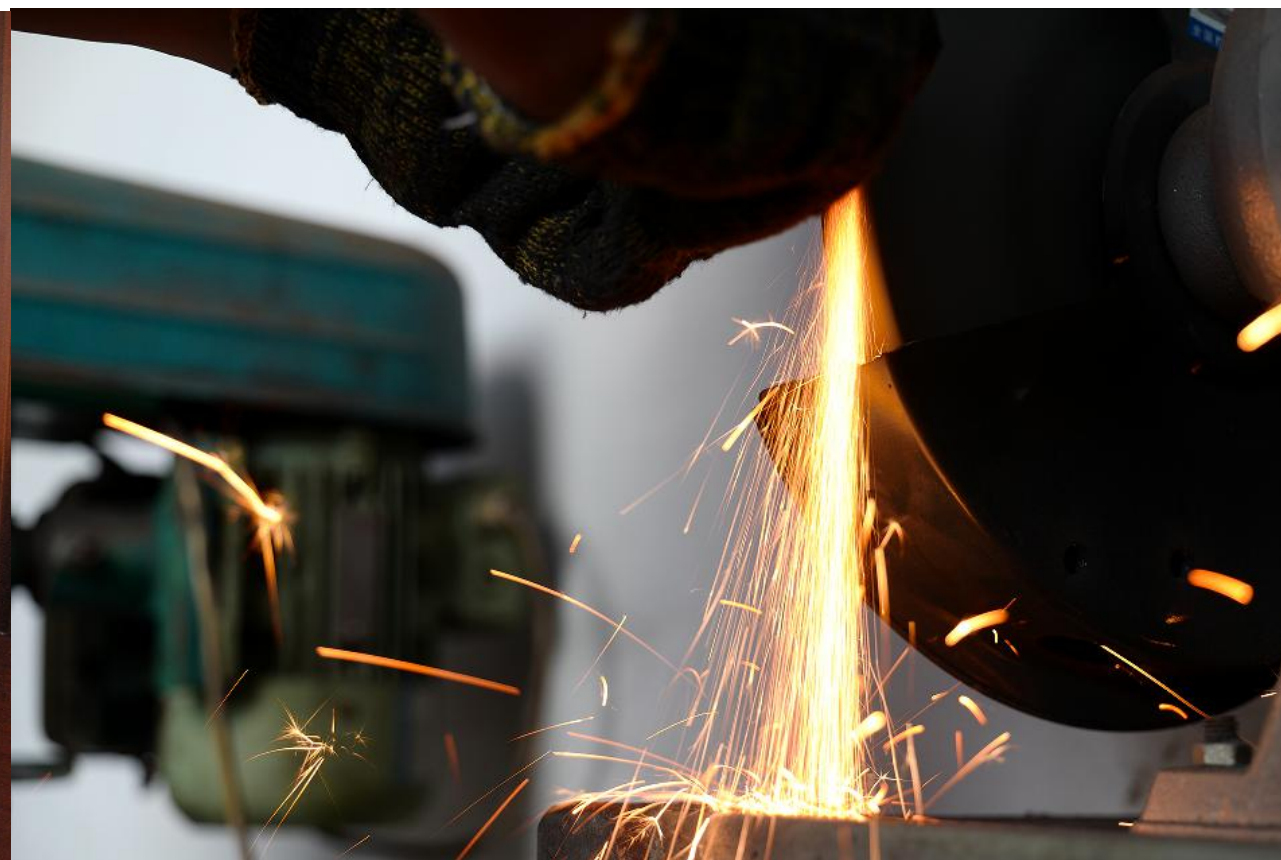

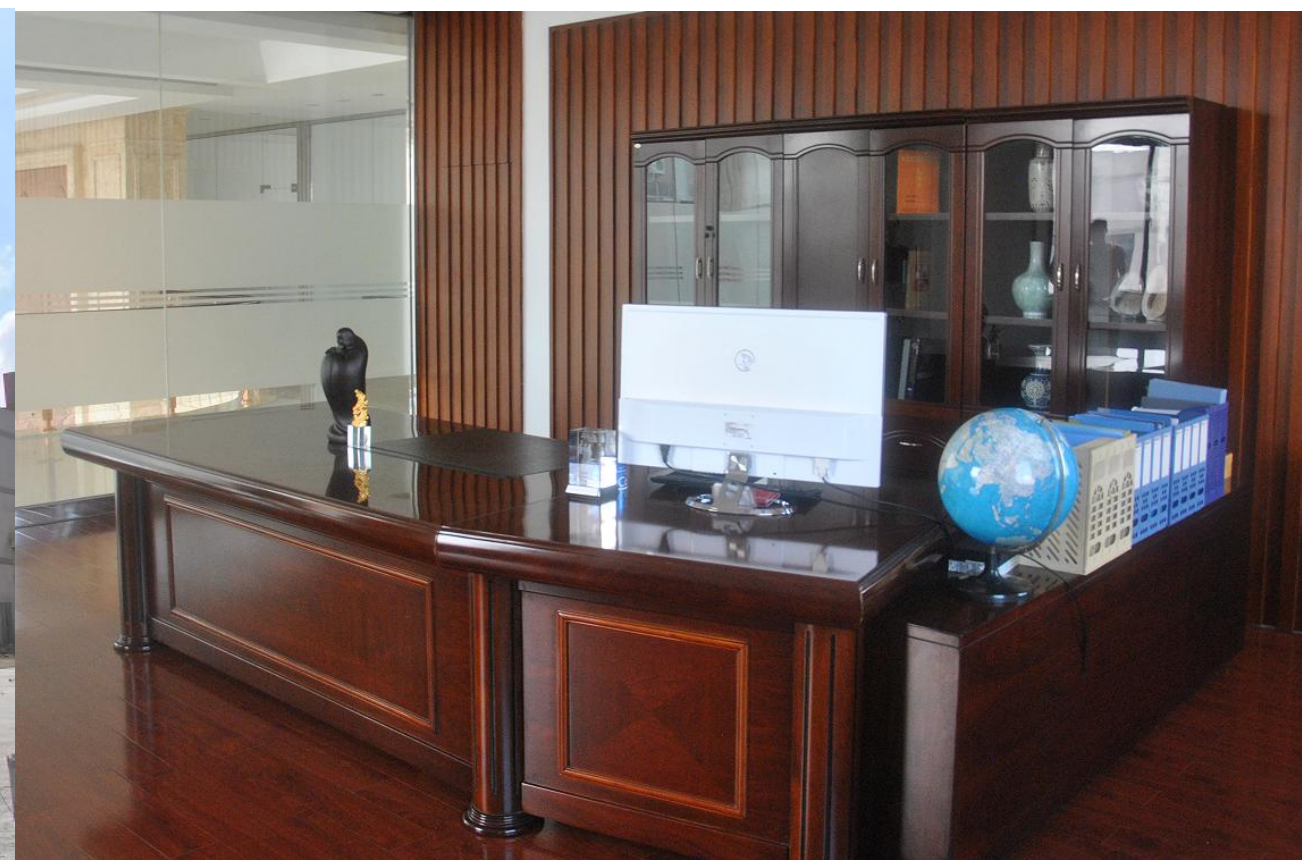

CEO of Sintelli purchased knitting machines from Taiwan and German to produce fabrics. Sintelli was before also a circular knitting machine user and knowledgeable about what user needed most.

# Company Introduction

New Factory Established with the growing demands in domestic and foreign markets. We have full product line to manufacture knitting machine, from cylinder workshop, CNC milling machine to machine testing workshop and stock showroom. **We control machine quality from source, improving and producing the equipment ourselves.**
